

Help Hub

Travel Guide

This document has been created as a guide to help ease your travel to the 6 encompass Go-Live Help Hubs set up across Southern Trust.

Our Help Hubs will support staff either by phone or in person with a range of issues, queries, training or access that can't be resolved by their on the ground support.

We have included information on travel by car and public transport, including information on parking. As parking is limited on several of the sites, please consider car sharing where possible.

For each Trust site, a QR code has been provided at the top right-hand corner of the page that will take you to google maps on a mobile device. Just open the camera on your mobile phone, direct it at the code and a link should appear to take you to Google maps. To zoom in on the maps provided, click on the magnifier icon at the bottom right.

Where charges apply for parking, please bring change for the machines which may not support card payments.
