

**SOUTHERN HEALTH & SOCIAL CARE TRUST**

**Q1 - Number of New ED Attendances (Including Unplanned Repeat Attenders) recorded with pregnancy related nausea/vomiting/sickness or 'hyperemesis gravidarum'\* by Arrival Calendar Year**

**NOTES:**

\*Based on attendances recorded with UDDA Diag Description 1-7 = "Hyperemesis gravidarum"; "Hyperemesis gravidarum with metabolic disturbance"; "Mild hyperemesis gravidarum" or "Vomiting of pregnancy, unspecified". UDDA Diagnosis Codes were confirmed by ED admin 27/01/2025.

Note: **Free Text UDDA Diagnosis fields have not been explored.** The information is based on those ED attendances with UDDA Diag Description 1-7 coded with specific diag mentioned above. UDDA coding levels as at 28/01/2025 for period 01/01/2019 - 31/12/2019 = 92.4%, 01/01/2023 - 31/12/2023 = 94.9% and 01/01/2024 - 31/12/2024 = 86.5%. This means there could be some ED attendances with pregnancy related nausea/vomiting/sickness or hyperemesis gravidarum that haven't been coded and are therefore not included below.

Arrival Calendar Year		
Y2019	Y2023	Y2024
197	155	120
