FREEDOM OF INFORMATION ACT 2000 – INFORMATION REQUEST

Any local guidelines or pathways used within your Trust to inform clinicians on coeliac disease diagnosis and follow-up care. We are interested in guidance for adults and children seen in any setting.

If your area does not have local guidance/pathways for coeliac disease, please specify which clinical guidelines (e.g. NICE, ESPGHAN, BSG) are recommended to clinicians.

Adult Services Response:

In secondary care (and at the specialist dietetic coeliac clinic) we follow the BSG guidelines.

Children & Young People Services Response:

Within the Southern Health and Social Care Trust our Paediatric Dietitians use the following guideline and pathway to guide them in relation to coeliac disease diagnosis and ongoing management amongst our Paediatric population.

Paediatric Dietetic Care pathways, ESPGHAN guidelines for diagnosis of Paediatric Coeliac Disease (2020)

Please see attachment 1 - Regional Paediatric Dietetic Care Pathways

Please see attachment 2 - ESPGHAN position paper on management and follow up of children & adolescents with Coeliac Disease (2022).

Please see attachment 3 - ESPGHAN, Advice Guide on Diagnosis of Paediatric Coeliac Disease (2020)
