FREEDOM OF INFORMATION ACT 2000 – INFORMATION REQUEST

Question. Can you please provide a list of all consultants to include their full name (not initials) and area of specialty?

This information is in the public domain via the GMC database but I am seeking information by Trust within NI. To identify each and every consultant within your specific Trust would be unfairly onerous due to the limitations of the GMC search facilities.

Response:

Please see attachment containing a list of all trust consultants and area of speciality.
