24<sup>th</sup> October 2025

**FREEDOM OF INFORMATION ACT 2000 – INFORMATION REQUEST**

**Question. In the last 3 months (July, August, September 2025), how many haemophilia A and B and von Willebrand patients were treated with the following coagulation factors in your trust and how much volume (IUs or mg) was used?**

|  | <b>Number of treated patients</b> | <b>Volume used (IUs, mg)</b> |
|--|-----------------------------------|------------------------------|
| <b>Hemlibra (non-inhibitor patients)</b> |                                   |                              |
| <b>Hemgenix</b>                          |                                   |                              |
| <b>Altuvoct</b>                          |                                   |                              |
| <b>Advate</b>                            |                                   |                              |
| <b>Adynovi</b>                           |                                   |                              |
| <b>Elocta</b>                            |                                   |                              |
| <b>Esperoct</b>                          |                                   |                              |
| <b>NovoEight</b>                         |                                   |                              |
| <b>ReFacto AF</b>                        |                                   |                              |
| <b>Nuwiq</b>                             |                                   |                              |
| <b>Hympavzi</b>                          |                                   |                              |
| <b>Idelvion</b>                          |                                   |                              |
| <b>Refixia</b>                           |                                   |                              |
| <b>Alprolix</b>                          |                                   |                              |
| <b>BeneFIX</b>                           |                                   |                              |
| <b>Replenine</b>                         |                                   |                              |
| <b>Rixubis</b>                           |                                   |                              |
| <b>Veyvondi</b>                          |                                   |                              |
| <b>Voncento</b>                          |                                   |                              |
| <b>Wilate</b>                            |                                   |                              |
