

FOI 3500

22nd December 2025

FREEDOM OF INFORMATION ACT 2000 – INFORMATION REQUEST

HAE:

Q1. In the past 3 months [latest 3 months available] how many patients have received the following treatments [for any disease]:

Berinert (Human C1-esterase inhibitor) - 0
Cinryze (Human C1-esterase inhibitor) - 0
Orladeyo (Berotralstat) - 0
Takhzyro (Lanadelumab) - 0
Ruconest (Recombinant human C1-esterase inhibitor) - 0
Firazyr (Icatibant injection) - 0
Icatibant - any brand except Firazyr - 0

IG:

Q2. In the past 3 months how many patients have received the following treatment for any disease:

Octagam - <5
Gamunex - 36
Intratect – <5
Kiovig – 0
Gamten – 0
Panzyga - 9
Xembify - 0
Cuvitru - 0
Cutaquig - <5
Hyqvia - 0

The Trust has a legal duty to protect patient confidentiality and, in line with this duty, the figure <5 has been provided where figures are very low. This is because of the potential risk of identification of an individual. In reaching this decision the Trust has taken into account the small geographical area which the Trust serves and the sensitivity of the information requested. In addition the Trust has taken into account the fact that all information disclosed in response to an FOI is disclosed to the 'world at large' and is published on the Trust website.

S 40 (2) (third party information) of the Freedom of Information Act 2000 has been applied to exempt the redacted information from disclosure. The Trust does not consider the

disclosure of the redacted information to be fair to the individuals concerned as there is the potential risk of identification of an individual(s) which they would not expect, and which would therefore breach the fairness element of the first principle of the Data Protection Act 2018.

Q3: In the past 3 months, how many patients have received any immunoglobulin treatment for the following diseases:

Primary immunodeficiency (PID)

Secondary immunodeficiency (SID)

Chronic Inflammatory Demyelinating Polyneuropathy (CIDP)

Response:

Not held
