FREEDOM OF INFORMATION ACT 2000 – INFORMATION REQUEST

How much money does the main canteen in Craigavon Area Hospital make in a day, week, month and year? Also, how much money is it spending on supplies? Does the canteen be in profit or negative? Could I have all finance stats around the canteen in CAH? Thank you.

Response:

Please see figures below for the main canteen in Craigavon Area Hospital for the full financial year 2024/2025.

The monthly, weekly and daily figures have been calculated on the average of a full year position.

Costs include goods and payroll costs.

£586k per year is spent on catering supplies.

The cost of catering supplies does not take account of some food items which are ordered under the patient cost centre where it is difficult to separate between patient and dining room cost centres, e.g. bread.

	2024/25 Year £'000	2024/25 Month £'000	2024/25 Week £'000	2024/25 Day £'000
Income	1,118	93	21	3
Costs	1,205	100	23	3
Loss	87	7	2	0
