

FOI 3776

27th May 2026

FREEDOM OF INFORMATION ACT 2000 – INFORMATION REQUEST

Question: Can your trust please provide me with an annual breakdown from 2020 to May 2026, of the number of times it has recorded that a person was:

(i) injured

(ii) killed when either boarding or exiting a bus in Northern Ireland?

Can you please provide a gender breakdown?

Also, could you provide an age bracket breakdown of those under 18 and those over 18?

Response: In response to '(i) injured', Please refer to table in attachment 1, which shows data based on hospital admissions in the Southern Health & Social Care Trust who had a diagnosis of injury when either boarding or exiting a bus. Data ranges from 2020 – 2025*, broken down by gender and age bracket, of those under age 18 and also over age 18.

**The latest month for fully coded diagnosis codes is Dec 2025 so data is provided up to 31/12/2025 only.*

In response to '(ii) killed when either boarding or exiting a bus in Northern Ireland',

The Emergency Department have advised they wouldn't record this information; it would just be recorded as an accident in a public place.
