10.1.8	<p>How many Children in Need are currently awaiting assessment or treatment with child and adolescent mental health services as at 31st March</p> <p>As of 31st March 2019 there were a total of 303 Children In Need awaiting assessment within CAMHS. Tier 2 – 151, Tier 3 – 152.</p>												Board Return																																																																																																			
	<p><i>Trend analysis and commentary (Refers to ALL i.e. tiers 2-4 children awaiting CAMHS regardless of the pathway to the waiting list)</i></p> <p>Tier 2 – 151, Tier 3 – 152. This is an increase of 145 since 30th September 2018.</p>																																																																																																															
10.1.9	<p>What preventative action is being taken by the Trust to ensure that children in need are not involved in offending behaviour (offending behaviour is defined as: formally cautioned or convicted).</p> <p><i>(Narrative by Head of Service)</i></p>																																																																																																															

	<p>The Trust continues to work in partnership with a range of agencies involved in youth offending which include PSNI, Barnardos, NIACRO via the Child and Parent Support service, SELB and the Youth Justice Agency. A range of preventative action is being taken:</p> <ul style="list-style-type: none"> • The Trust is a lead partner in the Young Peoples Partnership (YPP). The YPP is a focused adolescent project, committed to supporting adolescents and their parents/carers in a preventative capacity. The Trust supports this service through the provision of staff and financial resources to assist in the management and implementation of the Adolescent Prevention and Support Strategy. This includes a multi-disciplinary team, consisting of Social Workers, Outreach workers, Youth Homeless workers, CAMHS staff and neighbourhood renewal personnel located in each legacy Trust locality. A specific emphasis is placed on children involved in and at risk of offending by the Service. Interventions are delivered via individual work and group work. • CAPS (NIACRO) have a service level agreement with the Trust and provide intervention to families and children aged 7 to 12 years who are at risk of offending. CAPS also host the Craigavon and Banbridge family support hub and also participate in the other 2 locality Hubs and respond to appropriate referrals where there is a risk of offending behaviour. • The Trust in consultation with other statutory, voluntary and community services has established locality based Family Support Hubs which receive and allocate referrals, including adolescents at risk of offending, to the appropriate service at an early stage. This is based on the principal of early intervention. • The Safeguarding and Family Support Service and Corporate Parenting provide an on-going service to young people who are referred to Social Services due to offending behaviour. Support packages inclusive of individual social work support are made available to these young people to assist them to address their offending behaviours. • The Trust is engaging with other key stakeholders via the Southern Outcomes Group which consists of statutory, voluntary and community organisations who have a key role in early intervention and prevention around offending. Planning and agreeing strategic direction in relation to the prevention of offending is central to this. • The Trust continues to support a number of organisations with financial assistance via service level agreements to deliver locally based services to work with adolescents and their families with the objective of preventing offending. • The restorative practice approach to intervention in the residential homes is directly aimed at reducing offending behaviour and diverting young people from the criminal justice system. 	
10.1.10	<p>How many of the Children in Need are Young Carers</p> <p>A total of 169 Children in Need are Young Carers. This is an increase of 23 on the numbers provided at 30th September 2018.</p> <p>Young Carers who are in receipt of a service from Action for Children are Children in Need.</p> <p>Armagh and Dungannon – 49, Crigavon & Banbridge – 90, Newry & Mourne – 30, making a Total of 169.</p>	

10.1.11	How many young people aged 16 and 17 years presented to the Trust as homeless / or were referred by NIHE to Trust as homeless during the period and their outcome This information will be sourced by HSCB. 10.2.8	What percentage of registrations are re-registrations? 10% of registrations are re-registrations at 31st March 2019. This figure can fluctuate due to a number of variances, i.e, size of the family, or specific incidents that occur leading to a case conference being convened again.	CP 31.03.19																																																																																																																																																																				
10.2.9	How many re-registrations were there within 6 months? NB include an explanation for each incidence. (Narrative) There were 16 children (6 families) re-registered within 6 months of de-registration. Family 1 12 Year old young person - original Child Protection Registration due to unstable relationship between mother and partner and domestic violence. Child's name removed from CPR when mother's relationship with partner ended and she had sole care of child. Re – Registered when significant deterioration in young Person's behaviour – difficulties at school, not engaging with services, absconding from home, risk taking behaviours including alcohol misuse – deemed CSE risk and mother unable to manage these behaviours. Family 2 Family of 3 children in care of both parents. Children's names originally added to Child Protection Register due to domestic violence from father directed at mother and alcohol abuse by																																																																																																																																																																					

	<p>parents. Extensive intervention, education and safety planning work completed and no further evidence of concern led to de – registration.</p> <p>Children re – registered when recurrence of alcohol misuse and violence from mother directed towards father.</p> <p><u>Family 3</u></p> <p>Family of 6 children brought to Child Protection process and originally subject of registration due to domestic violence by father of youngest children. Couple separated after CP registration and undertook extensive intervention. Children de-registered when couple did not resume relationship and no concerns re mother’s care.</p> <p>Re - Registered due to concerns re mother’s new partner’s history of violence outside the home and need for safety plan.</p> <p><u>Family 4</u></p> <p>2 children. Names placed on CPR due to mother’s alcohol abuse and mental health difficulties (mother was single parent). Children’s names removed from CPR when they became LAC and were placed with maternal grandmother.</p> <p>Matter brought back for management within Child Protection Process and re – registered when mother resumed care of children following period of intensive intervention.</p> <p><u>Family 5</u></p> <p>Family with 2 children. Original child Protection Registration due to Step Father (Dad of one of the children) driving while drunk with both children in car. Also concerns re Suspected Domestic Violence. Following lengthy period of involvement and intervention children’s names removed from CPR as no indications of further concern.</p> <p>Case re – entered child Protection process and children names re – added to CPR when evidence emerged of domestic violence and continuing alcohol abuse by father.</p> <p><u>Family 6</u></p> <p>Two Children – Initial Child Protection Registration due to unstable relationship between parents and alcohol misuse. Period of intensive intervention however parents breached Safety Plan and children became LAC placed in Kinship Placement at which stage they were De-Registered and case managed via LAC process.</p> <p>Case re – entered Child Protection Process (Procedural Requirement) and re-registered when parental relationship ceased and father assumed sole care with extensive support and safety plan in place. Children’s names added to CPR again.</p>

10.2.11	How much time is spent on Child Protection Gateway Family Intervention Service Looked After Children	Not Required																																																														
10.2.12	Commentary on Trends of Child Protection Register																																																															
	<i>Trend Analysis and commentary</i> As indicated in 10.2.1 the number of children on the Child Protection Register at 31 st March 2019 is 550. This indicates an increase of 55 from the figure at 30 th September 2018. The Trust and HSBC monitors child protection activity on an ongoing basis via the Priority 5 monthly returns and quarterly statistical data.																																																															
10.2.13	Commentary on length of time children spend on register, particularly >1 year																																																															
	<i>Trend Analysis and commentary</i> There are 157 children whose names have been on the CPR for more than 12 months at 31 st March 2019, 57 of whom have been on for more than 24 months. There has been a slight decrease from position 30 th September 2018 where there were 60 children whose names were on the CPR for more than 24 months. The reasons for lengthy registrations remain relatively unchanged, ie the time taken to complete multiple assessments, the protracted nature of criminal proceedings in relation to alleged adult offenders and changing family circumstances. A small number of these children may also be subject to care proceedings initiated by the Trust due to lack of progress with Child Protection Plans but the Court, while granting an Interim Care Order, will not agree to the children's removal from parental care, thus making de-registration impossible. The Independent Assessors Panel remains operational and considers cases which have been registered for more than 18 months with limited progress in																																																															

	reducing the level of risk.
10.2.14	<p>Commentary on what measures are being taken to tackle overdue case Conferences and the length of time children spend on the register</p> <p><i>Trend Analysis and commentary</i></p> <p>There were 4 Initial Case Conference held outside the 15 working days timescale, however there were 25 case conferences held outside the 3 month and 6 month requirements. This is an increase of 1 from the previous period. The main reasons for Case Conferences being overdue were: lack of a quorum on the identified date; relevant personnel unavailable to attend; to facilitate parental involvement.</p> <p>In conjunction with Community Paediatricians & Child Protection Nurses, the Independent Chairpersons continue to implement specific schedules for convening Initial Case Conferences in each locality to maximise attendance. These appear to be working satisfactorily at present and are monitored on an ongoing basis.</p> <p>The Independent Case Conference Chairs remain very focussed on those children whose names remain on the Child Protection Register for over 18 months and Child Protection Plans are developed to expedite assessments/specialist interventions as quickly as possible. Lengthy criminal court processes remain a significant factor in delays. The Case Conference Chairs continue to refer to the Independent Assessors Panel when criteria is met and it continues to be an active and beneficial process.</p>

Total	10	12	18	15	17	17	12	8	57	52

Trust must provide separate narrative / detailed explanation of every child who has 'moved more than 4 times or more' during the period.

Child/ Young Person 1

Young Person LAC due to presenting behaviours beyond parental control – challenging boundaries, absconding, alcohol misuse and violent outbursts. Foster Placement broke down due to these challenging behaviours. Young person placed in a series (3) Short Term Foster Placements all of whom had other commitments and could not offer longer care arrangements. Following overnight with father Young Person moved to Supported Lodging arrangements where they have settled and remained (supported by one further brief move to father).

Child/ Young Person 2

Young Person subject of Interim Care Order deemed beyond parental control. Foster Placement breakdown due to challenging behaviours (non-adherence to boundaries) led to move to emergency placement and move back to substantive Foster Placement which then ended. Young Person had a number of moves to Emergency Foster Placements while alternate placements being sought. Now placed with family member.

Child/ Young Person 3

Child in Foster Care subject of Freeing Order. Had 2 separate stays with same

Foster Carers (as respite) to accommodate Foster Carer planned holiday. Has since moved to prospective adoptive placement.

Child/ Young Person 4

Child, eldest of four children. Subject of Care Order due to significant Domestic Violence within home and mother's mental health difficulties. Child is in mother's care (single parent) supported by monthly respite and a period back in foster care while mother in hospital and during mother's recovery – consistent respite arrangements in place.

Child/ Young Person 5

Child became LAC Accommodated status due to mother's (single parent) mental ill health. Child avails of regular respite (with same foster carers) to support mother.

Child/Young Person 6

Child subject of Care Order. Family history of domestic violence and physical abuse. Placed in Long Term Intensive Support Foster Placement due to very challenging behaviours – placement ended resulting in placement moves between 2 separate placements pending identification of a further intensive support placement. Child has now moved to that placement.

Child/Young Person 7

Young Person LAC Accommodated Status as was deemed 'beyond parental care'. Situation settled within Foster Placement and following work with mother and partner young person had a number of moves between foster placement and mother's care as part of rehabilitation and post return to mother's care continued with respite support in Foster Care.

Child/Young Person 8

Young Person subject of Care Order and LAC due to extensive family history of domestic violence, alcohol abuse, and neglect. Presents with challenging and aggressive behaviours. Long Term Foster Placement broke down following serious assault by Young Person on Foster Carer. Young Person moved to a series of Emergency and Short Term Foster Placements all of which ended due to continuing disruptive behaviours of Young Person. Young person placed in residential placement pending identification of further Foster Placement.

Child/Young Person 9

Sibling Group of 2 became LAC and subject of CO due to alcohol misuse, Mental Ill Health and unstable lifestyle of mother. Placed with Family Member. Kinship placement is supported with regular respite with identified respite carers.

Child/Young Person 10

Sibling Group of 2 became LAC and subject of CO due to alcohol misuse, Mental Ill Health and unstable lifestyle of mother. Placed with Family Member. Kinship placement is supported with regular respite with identified respite carers

Child/Young Person 11

Young Person subject of Care Order - Long Term LAC as result of extensive physical abuse by parents. Long Term Foster Placement under stress due to relationship difficulties between carers and young person. Supported by 2 separate respite Foster Care arrangements. Substantive placement ended and

Young person moved to Short Term Placement pending establishment of longer term arrangement.

Child/Young Person 12

Young Person subject of Care Order Long Term LAC due to domestic violence and alleged sexual abuse within family. Settled within Long Term foster placement supported by respite with identified respite Foster Carers – also has occasional overnight stays with separate identified extended family members.

Child/Young Person 13

Young person became LAC and subject of Interim Care Order due to chronic neglect by parents. Had been settled in foster care however difficulties developed in placement due to relationship with foster carer. Placement supported by respite with other foster carers (known to young person). Young person has now moved to new substantive foster placement.

Child/Young Person 14

Child subject of Care Order due to family history of extensive neglect while in mother's care (single parent). Child in Long Term Kinship placement - avails of regular overnight stay with mother as part of contact arrangement and to maintain relationship.

Child/Young Person 15

Third eldest child in family of 4 children - Voluntary Accommodated – extensive history of severe neglect and allegations of physical abuse by both parents. Child was in Short Term Foster Placement which ended due to difficulties managing behaviour and child being physically very rough towards Carers' children. Child moved to Emergency Carer and then to further Short Term Placement which broke down within a few days due to challenging behaviours. There was a further move to an Emergency Foster Carer leading to placement with Short Term Foster Carers.

Child/Young Person 16

Young Person (eldest of 4 children) Voluntary Accommodated – extensive history of severe neglect and allegations of physical abuse by both parents. Foster Placement ended when Young Person refused to return due to antagonistic relationship with sibling (in same placement). Was moved to Emergency Placement and then to Short Term Placement which broke down due to attention seeking behaviours. This was followed by move to further Short Term Placement - two respite moves were required to cover holiday plans of those carers (made prior to placement). Young Person remains in this placement with regular respite to assist in management of demanding behaviours.

Child/Young Person 17

Child became LAC and subject of ICO due to alcohol abuse by mother (single parent) and unstable care. Mother is no longer engaging with services. Child in Short Term Foster placement which is supported with regular respite (with same respite carers).

Child/Young Person 18

One of a sibling group of 2 Young People – were in sole care of father (mother

deceased) became LAC (Emergency) due to neglect. Admitted to Short Term Foster Care and returned to father's care however further neglect issues led to both becoming LAC. Placed in Short Term Foster Placement support by Respite Carers - Short Term Placement broke down due to difficulties managing sibling rivalry and indications of emotional distress by one of the children. This led to a move to a further Short Term foster Placement.

Child/Young Person 19

One of a sibling group of 2 Young People – were in sole care of father (mother deceased) became LAC (Emergency) due to neglect. Admitted to Short Term Foster Care and returned to father's care however further neglect issues led to both becoming LAC. Placed in Short Term Foster Placement support by Respite Carers - Short Term Placement broke down due to difficulties managing sibling rivalry and indications of emotional distress by one of the children. This led to a move to a further Short Term foster Placement.

Child/Young Person 20

Young Person became LAC Accommodated Status following allegations of physical and sexual abuse by father. Substantive Foster Care Placement ended following difficulties in relationship between Young Person and child of Foster Carers. Young Person had respite placement and then moved to further Short Term placement with respite support before moving to Supported Living arrangement.

10.3.14	(a) Has each Looked After Child an allocated and named social worker at period end? All Looked After Children had an allocated and named Social Worker at period end. (b) Please state the number of Looked After Children who were without an allocated and named social worker during the period and give explanations. (Narrative) During the period there were no Looked After Children who did not have an allocated and named social worker.																																	
10.3.15	(a) Did each Looked After Child receive a statutory visit by their allocated and named social worker at least once a month during the period? All Looked After Children had and allocated and named social worker at period end. The Trust has a statutory duty to visit each looked after child in their placement																																	

	<p>once every month except for respite placements where the requirement is every six months. Within the reporting period there were a total of 21 children who did not receive a statutory visit during a particular month by their allocated and named social worker.</p> <p>(b) Please state the number of Looked After Children who did not receive a statutory visit at least once a month during the period by their allocated and named social worker and give explanations. (Narrative)</p> <p>Within the reporting period there were a total of 21 children who did not receive a statutory visit during a particular month by their allocated and named social worker. Reasons for this included: social worker on sick leave or urgently required to attend Court; visit cancelled by foster carer, young person not available when social worker visited the placement; Change of social worker and adverse weather. There have been some staffing challenges associated with Maternity leave and sick leave and difficulties in getting temporary staff cover.</p> <p>Where it was not possible for the statutory visit to be carried out by the allocated social worker, the visit was carried out by another available social worker. Visits were undertaken as soon as possible by either the named social worker or another member of the team. Each case was risk assessed by the team manager in regular consultation with the Head of Service. All cases were allocated as soon as new staff took up post. This continues to be monitored via the internal Roles and Responsibility returns which are submitted to and reviewed by the relevant Assistant Directors.</p>	
10.3.16	<p>Was the case of each Looked After Child reviewed in line with Statutory requirements? (Narrative)</p> <p>The Care Plan for each Looked After Child (including those availing of respite) is formally reviewed as per statutory requirements and many are reviewed more frequently than the statutory minimum depending on Care Plan and specific individual need. The Trust employs 4 Independent Chairpersons as well as 2 Service Managers within LAC who are responsible for chairing all Looked After Children reviews and case conferences.</p> <p>A total of 573 LAC reviews occurred within this time period of which 44 (7.68%) were outside timeframes.</p> <p>A significant factor during this time period has been the absence of one of the Independent Chairpersons on long term sick leave resulting in that workload having to be redistributed with subsequent delays in achieving alternative dates. Other reasons for reviews not occurring within timescales have included family requests for a different date, availability of key personnel or key assessment documentation to assist decision-making, absence of Social Worker/Team Leader due to urgent Court attendance.</p> <p>Staff are now more familiar with, and competent in the use of, the Paris Community</p>	

	<p>Information Systems and the new UNOCINI LAC documentation. While there had been some initial upheaval for both staff and service users and carers in adjusting to the new format of reports and minutes these are now well embedded in practice.</p> <p>There are some occasional difficulties with review scheduling due to the challenges of filling staff vacancies but every effort is made to minimize these issues and ensure that Care Plans are reviewed in a timely manner.</p>	
10.3.17	<p>No. of Looked After Children Reviews held during the period</p> <p>A total of 573 LAC reviews took place during this period.</p>	
10.3.18	<p>No. of these Looked After Children Reviews which during the period were outside of statutory timescales and why</p> <p>Of the 573 Looked After Review held within the period 44 were outside of statutory timescales.</p> <p>Reasons for reviews being outside the timeframes include parents requesting different dates for valid reasons, key people not being available to attend, a key assessment report not being available, to accommodate a young person to attend their review, social workers being unavailable e.g. on sick leave or in court. Every effort continues to be made to ensure that Initial Reviews are convened within, or close to, timeframes to ensure appropriate and prompt initial care plans are in place.</p>	
10.3.19	<p>For children accommodated by the Trust under Article 21 of the Children Order, what arrangements has the Trust in place to ensure that it has the appropriate degree of parental responsibility to care for these children? (Narrative)</p> <p>The LAC review of the child's care plan has a standing item on the agenda in relation to the need to change the child's legal status. This is the main method of ensuring an appropriate level of parental responsibility. Legal status is especially considered at the review which rules out rehabilitation to determine if there is a necessity for an order to progress a care plan of long term care.</p> <p>The progress of children's cases is also monitored through ongoing staff supervision and through the Permanency Panel. The LAC register is periodically reviewed by the Assistant Director for Corporate Parenting and where there are potential issues regarding long term Voluntary Accommodation of LAC this is brought to the attention of the relevant Head of Service for consideration.</p> <p>The Principal Practitioner for LAC has undertaken periodic audits of children who remain voluntary accommodated to ensure that is an appropriate legal status and this audit will be repeated on a rolling basis.</p>	
10.3.20	<p>Is there an adequate supply of placements for children to enable placement choice?</p>	

(Narrative)

Children With Disabilities

The paucity of care placements for children with disabilities has continued to present very significant challenges within Children's Disability Services. A lack of options has resulted in the new 3 bedded unit in Carrickore, 'Bluebell House', having to change direction in terms of its proposed function. Plans to develop it as a time-limited therapeutic service to stabilise a child's behaviour and work intensively with parents to help them manage their child's needs and behavior, have had to be deferred. It was envisaged that this new way of working between Carrickore and ID CAMHS would help keep families intact and ultimately reduce the number of children requiring full time specialist placements, which had previously had to be secured outside Northern Ireland.

However, the immediate needs of 3 young people requiring care placements resulted in a decision to provide this care in Bluebell House. The unit is therefore currently full, but a 4th young person also needed a care placement recently and had to be placed in the Short Breaks unit in Carrickore when nothing else could be identified. Staffing difficulties have meant that short breaks have had to be reduced in Oaklands in Armagh and no short breaks are currently available in Carrickore, in order to provide full time care for these 4 young people. This has had a detrimental impact on the children and families who depend on the short breaks service, many of whom view it as essential for them in being able to continue in their caring role. It has also resulted in local public representatives contacting the Trust expressing concern, and further negative publicity for the Trust in the local media. The Trust has also breached regulations regarding the number of days the young person has been in the short breaks unit and is working with RQIA to address this and return to compliance. Staffing levels should improve in the near future as interviews for posts are to take place mid-April and some staff are due to return to work from long term sick leave.

Internal work is being progressed at Assistant Director /senior management level about the model for Bluebell House, with a new cross-disciplinary / cross-service-area Development Group being established. Its primary function will be to identify a suitable therapeutic framework for the provision of residential care for children with intellectual disabilities and complex emotional / emotional / behavioural difficulties who require full time and permanent substitute care. This work will be informed in part by the learning from the recent pilot project in Bluebell House whereby dedicated OT and SLT service has been provided 'on the floor', directly within the service. This has been a very positive initiative and highlights the need to have a multi-professional, integrated approach within the model.

The recruitment, assessment, training and support of short breaks carers has also continued within CwD services. These carers provide day and overnight care to children on a regular basis, and capacity to provide for children with complex physical care and / or significant behavioural difficulties has been enhanced by the recent approval of another set of salaried carers. The Short Breaks Team continues to work in collaboration with Family Placement, such as a recent child specific recruitment campaign which continues to be co-worked across the two services. The need for emergency placements has recently become a pertinent

	<p>issue and the team is now looking at how to develop this.</p> <p>Children's Disability Services has continued its' ongoing drive to ensure a comprehensive range of support services are available to children with disabilities and their families as a preventative approach to family support. A wide range of options are available, including light touch community-based opportunities, more individualised support through contracted services, and specialist support such as residential short breaks care and short breaks carers.</p> <p><u>Family Placement</u></p> <p>The Trust continues to experience challenges in relation to recruiting sufficient numbers of new non Kinship foster carers to meet the placements demand. Family Placement Services continue efforts both regionally and Trust wide to increase the stock of foster carers in order to increase choice of placements.</p>	
10.3.21	<p>How many exceptions to the normal fostering limit were made to foster care approvals in order for a child to be placed in an emergency in the reporting period? (Narrative)</p> <p>There was 1 exemption to the normal fostering limit. Exemptions for foster carers who has 3 children in placement and who also facilitated numbers of short out of hours emergency placements usually lasting only a few days</p> <ul style="list-style-type: none"> • The Exemption is to facilitate the placement of a sibling group. 	
10.3.22	<p>What is the formal scheme of delegation that specifies who can agree such an exemption? (Narrative)</p> <p>If an exemption to the usual fostering limit is required, then the Senior Social Worker and Social Worker from the relevant fostering team complete a report requesting the application and reporting on the areas listed in schedule 5.4(2) of the Children (NI) Order 1995. The majorities of requests are completed in a planned way and are presented to the Trust Family Placement Panel for consideration and approval. In cases where an exemption is required immediately or outside of a panel sitting, then the request and report is considered and approved at Senior Manager or the Assistant Director in the absence of a senior manager and the request is subsequently presented at the next panel for further consideration and continued approval if required.</p>	
10.3.23	<p>How many children are deemed to be in an inappropriate placement given their assessed needs? (Narrative)</p> <p>11 children are deemed to be in a temporary placement that require an alternative placement to meet their needs.</p>

10.3.25	Do all looked after children have a concurrent plan by the time of their first 3 month statutory LAC Review ?
----------------	---

The permanence needs of all Looked After Children are considered at each LAC review and in line with the Regional Permanence Policy. The majority of Looked After Children have a Care Plan of rehabilitation from their initial LAC review although some will have a concurrent plan from the outset based on, for example, the outcome of a Pre-birth Risk Assessment and the history of previous Trust involvement.

The permanence needs of each Looked After Child are proactively addressed from the 3 month review onwards and each child is referred to the Permanence Panel after that review. Concurrent planning is put in place when the needs of the child and the likelihood of rehabilitation determine it as the most appropriate Care Plan at that stage.

The Trust has embedded the principles of the Home on Time project and the concurrent care approach into mainstream LAC services based on the success of the project in the Trust. The project has achieved its goal of permanent care in a timelier manner for this small group of young children. The Trust is now proactively seeking to place very young children in concurrent placements at an early stage when initial assessment has indicated high levels of concern about achieving rehabilitation.

10.3.27	<p>Can foster carers get access to support 24 hours a day throughout the period? (Narrative)</p> <p>Foster carers approved within the Southern Health and Social Care Trust are supported between 9.00am-5.00pm by a named supervising social worker. The Regional Service Out of Hours Service RESWS is in place to provide support outside of office hours. The Trust provides funding for foster carers membership fees of Fostering Network and in turn this gives all Trust Foster carers access to 24 hour support from this service.</p>																																															
10.3.28	<p>What action is being taken to monitor and reduce the number of placement moves experienced by Looked After Children? (Narrative)</p> <p>The Trust are very conscious of the number of placement moves experienced by a small number of Looked After young people especially the under 12s. These are, in the main, some of the most challenging and complex young people within our care.</p> <p>The number of placement moves is being monitored and addressed at a number of levels:</p> <ul style="list-style-type: none">- the Chairpersons monitor placement stability and any moves at each LAC review and escalate concerns to Head of Service when appropriate;- all moves, both planned and unplanned, are recorded on the monthly Roles & Responsibilities return which is reviewed by both Head of Service and Assistant Director. Where a pattern of frequent moves is identified, that young person is referred to the Trust's Resource Panel to consider their assessed placement needs and the appropriateness of each placement. The Resource Panel is proactively monitoring trends and seeking options for greater placement stability for all LAC young people but especially the under 12s for whom multiple moves add to their sense of trauma.- placement moves are also monitored via the monthly Permanence Panel meetings with appropriate referrals to the Resource Panel when required.- ongoing recruitment of new carers within Family Placement will enhance and increase opportunities for better matching of young people with placements and will, through time, ultimately lead to greater stability and less moves.

10.3.30

What is being done in partnership with other agencies to reduce the volume of Looked After Children involved in offending behavior?
(Narrative)

Social work staff in LAC teams, 14 plus teams and residential care work closely with the Youth Justice Agency, the PSNI Reducing Offending Team and the PSNI Youth Diversion Team to reduce offending behaviours among Looked After Children. Links have been developed with the Bail Support Scheme (Youth Justice Agency) with the objective of enabling young people to adhere to any bail conditions to avoid the potential of being remanded to custody.

CAPS (NIACRO) also work with children including Looked After Children under the age of 12 who are at risk of offending.

When a young person is admitted to Residential care staff work closely with relevant agencies including the PSNI, Youth Justice Agency and Probation Service to educate and support young people who have, or are at risk of offending. There is ongoing work with relevant other agencies, both statutory and voluntary agencies in respect of misuse of drugs or alcohol to try to break this cycle and thus reduce potential for offending behavior.

The Trust, under transformational investment funding has recently established a Peripatetic Residential Support Team; one of the objectives of this team is to engage young people who live in residential care in meaningful diversionary activities within their local communities thus aiming to prevent offending behaviour, and to support the young person to settle within their residential placements.

	<p>LAC, 14 plus teams, and residential teams work with a number of services such as the YPP outreach service, fostering outreach service and services external to the Trust e.g. VOYPIC, CAPS, Extern to engage young people in preventative services aimed at avoiding risk of offending.</p> <p>Relevant agencies concerned with the prevention of offending are invited to become involved in the planning and review process for specific LAC cases where there is a need for such intervention.</p> <p>Further, where appropriate there is engagement with Forensic CAMHS on case specific basis to assist with understanding a young person's offending and to develop strategies for diversionary activities on return to community placement. There is also multi agency planning meetings to prepare for a young person's discharge from the Juvenile Justice Centre to optimise opportunities for a successful transition back to the community.</p> <p>Social services, Youth Justice Agency and the PSNI engage at a strategic level under the auspices of the Missing Children protocol and have developed working arrangements which is effective in relation to sharing information and expertise re: offending and children at risk of same.</p>
10.3.31	<p>What action is being taken to address the health needs of Looked After Children? (Narrative)</p> <p>The Trust has a statutory responsibility to ensure that all Looked After Children have a statutory medical examination completed within the required timescales.</p> <p>The Trust also ensures that Looked After Children/Young People admitted into care for the first-time have an initial health assessment completed by the three month Looked After Children Review. The health assessment provides a valuable baseline assessment of the Child/Young Person's health at the point of entry into care. The health assessment includes a health plan that clearly identifies any unmet health needs, the actions required, and the person responsible for ensuring actions are carried out within the agreed timescales. The health assessment contributes to the holistic assessment of the Child/Young Person's needs and aims to promote good multi-disciplinary communication. The health assessment is made available for the Statutory Medical and Looked After Children Review.</p> <p>The Trust implements the Southern Health and Social Care Trust's 'Looked After Children and Young People - Personal Development Guidance for Staff and Carers' Document (2013). The document provides guidance for staff and carers regarding the key areas of personal development that should be discussed with the Child/Young Person at appropriate developmental stages. The guidance document is available via the Trust intranet. The Personal Development Guidance is referenced at Looked After Children Review Meetings and the Independent Chairperson should agree in co-operation with the Child/Young Person and other Participants what personal development work is required and who will be responsible for its delivery.</p>

	<p>The Trust also implements the Southern Health and Social Care Trust’s ‘Promoting the Health and Well-being of Looked after Children - Policy and Standards for Looked after Children for Health Visitors, School Nurses and the Specialist Nurse for Looked after Children’ Document (2017). This document is available via the Trust intranet. The document is aligned with the Regional Guidance Document - ‘Promoting the health and wellbeing of Looked after Children and Young People. Guidance for Health Visitors, School Nurses, Family Nurses (Family Nurse Partnership) and Looked after Children Nurse Specialists’ (2014).</p> <p>The Trust ensures that all Looked After Children are easily identified on the Child Health System and this helps alert the Health Professionals that there is a Child who may require additional support.</p> <p>The Trust has a Scaffold Consultation and Therapeutic Service which provides specialist input to support the emotional and psychological wellbeing of Looked after Children. This service aims to support staff in addressing the complex health needs of Looked After Children and to encourage innovative practice that will ultimately improve their health outcomes. The Scaffold Consultation and Therapeutic Service comprises of Psychology, Social Work, Occupational Therapy, Specialist Nursing and Primary Mental Health staff. Input is provided to adopted Children and their Families, Children and Young People in foster and residential care, and Young People who receive aftercare services. Inputs include direct therapeutic work, training and consultation, and supports to Staff and Carers.</p> <p>The Trust has a Specialist Nurse for Looked after Children. The Specialist Nurse for Looked After Children’s role and remit is to provide advice, guidance and information on a wide range of health related issues to Looked After Children and Young People in Care (aged 11 to 18), Carers, Social Workers and other Professionals; to provide direct individual or group work in relation to health-related issues; to provide and annually review health assessments and health plans for all young people in residential care; to promote understanding of the health needs of Looked After Children and Young People in Care by providing input into induction training for newly appointed Health Visitors and School Nurses and for Nursing/Health Visiting/School Nursing Students; and to develop practice and support systems focusing on the health needs of Looked After Child and Young People in Care.</p>

(c) What is being done to address the problem of children going missing

(Narrative)

The Trust continues to manage all episodes of young people going missing as per the regionally agreed policy and this is maintained on staff and managers agenda via awareness raising, discussions at team meetings, formal reviews in respect of specific children and inter professional meetings.

Young people who are involved in regular episodes of missing are risk assessed and information escalated as required. Dependent on the risk status, some individual cases are discussed at the quarterly Trust/PSNI Strategic Interface meeting (Children who go missing Protocol) for the purposes of appropriate information sharing and joint management. This meeting is chaired by the Assistant Director for Corporate Parenting and attended by senior staff from PSNI, Social Services and the Youth Justice Agency

There are operational links into this forum with the Trust CSE lead and effective communication is maintained with PSNI.

Reporting mechanisms are also implemented re advising HSCB, parents and other relevant stakeholders.

Emphasis is afforded to engaging with relevant young people in terms of protection work to advise them of associated risks of going missing from home or care and to attempt to engage them in diversionary activities. Senior management in Residential care, Youth Justice Agency and PSNI are working to further refine PSNI involvement in residential facilities with a view to developing preventative work to avoid children going missing from Residential Care. In addition via the "Transformational Investments" the Trust has established a multi-disciplinary team operating during evenings and at weekends to support residential units and to create additional diversionary activities for children and young people in Residential Care with a partial objective of reducing "missing" episodes. This service has been operational since February 2019.

Training continues to be made available to relevant staff and foster carers in respect of CSE and related issues.

There are variations in relation to the frequency of Missing Episodes across various facilities and this can be linked to specific young people who were particularly unsettled at a period in time.

	<p>The Trust continues to invest in the family Placement Service with the objective of recruiting additional specialist foster carers to be a better able to meet the needs of more complex young people and afford stable placements and thus reduce episodes of young people going missing.</p> <p>Overall, the Trust enjoys effective working relationships with PSNI colleagues in managing missing episodes and striving to safeguard vulnerable children and young people in our care.</p>	
10.3.35	<p>Number of children accommodated by ELB for 3 months or more by category</p> <p>1 young person accommodated in an education placement in Southlands School, Hampshire – a residential school for children/young people with autism.</p>	
10.3.36	<p>(a) Number of sibling groups accommodated:</p> <ul style="list-style-type: none"> • Together • Not accommodated together <p>Reasons for separation: (Narrative)</p> <p>Please give explicit detail where sibling groups are placed separately in Kinship / arrangements)</p> <ul style="list-style-type: none"> • Together – 112 sibling groups, relating to 250 children • Not accommodated together – 105 sibling groups, relating to 327 children <p>The Trust strives to place siblings together but this is not always achievable or appropriate for the following reasons:</p> <ul style="list-style-type: none"> • Shortage of residential/fostering placements • Individual needs of young people cannot be met in one placement • Conflicting/competing needs of siblings • Large family groups • Different care plans eg. Older children in residential or foster care / younger siblings possibly requiring adoption • Different ages of young people • Rehabilitation to separate parents. <p>(b) How many sibling groups became Looked After during the period? If placed apart provide an explanation for each occurrence.</p> <p>Of the children identified above, there are 4 sibling groups where siblings are separated across kinship placements. This involves a total of 10 children.</p> <p>Reasons for separation are:</p> <ul style="list-style-type: none"> • Size of sibling groups (2-4 children) • Availability of kinship options, especially when siblings have different fathers. • Previous kinship arrangements have broken down due to behavioural issues 	

	<p>or carer health/not able to sustain long term care arrangements.</p> <ul style="list-style-type: none"> • Impact of parental influence on kinship placement. • Kinship carers have not been approved. • Children's individual needs cannot be met within one placement. • Children's attachments with relatives. <p><u>Family 1</u> Sibling group of 4 children – became LAC due to lengthy history of extensive neglect. Initially eldest 2 children placed together and third and fourth children placed in 2 separate Short Term Placements as no placement available to take all 4 children. The older child has since moved to a separate Short Term Placement due to breakdown of relationship with the sibling. This means that all 4 children are in separate placements. Difficulties in managing behaviour of 2 of these children and needs of all 4 best met in separate placements at present.</p> <p><u>Family 2</u> Sibling group of 2 children. Family history of undisclosed domestic violence and physical abuse of youngest child. Eldest child is subject of ICO placed with relatives on direction of Court. Youngest child also subject of ICO placed with Short Term Foster Carers pending assessment of relative placement. Time limited assessment of mother with a view to rehabilitating both children to her sole care.</p> <p><u>Family 3</u> Family group of 2 children. Older child Voluntary Accommodated. Family history of domestic violence, misuse of alcohol and drugs, and Mother's mental health difficulties. Father unable to care for children. Older child was in Short Term foster Placement when second child born – Carers for older child could not care for baby who was admitted on ICO at birth. Both children remain in separate Short Term Placement with regular contact pending parenting assessment.</p> <p><u>Family 4</u> Sibling group of 2 children with extensive family history of neglect. Became LAC on emergency basis (initially Voluntary Accommodated, then subject of EPO and ICO) and were placed together with Emergency Foster Carers however due to significant health needs no placements available which could meet the health needs of both children together. Children placed in separate Short Term Foster placements with regular contact.</p>

10.6.12	<p>Details of recruitment, assessment, training, support for prospective adopters</p> <p><i>Narrative</i></p> <p>Adoption enquiries are processed through the fostering and adoption recruitment team based in Portadown. Following home visits and one to one contact applicants are offered attendance at an Adoption Awareness Course. At the end of this course applicants apply to be assessed as adopters. Formal applications are not accepted until all stage 1 checks are undertaken and found to be satisfactory (medicals, Access NI and references).</p> <p>Applicants who are accepted for assessment are assessed by experienced social work staff. The assessment and recommendations are presented to the Trust Adoption Panel for approval. If approved a supervising/support worker is appointed to monitor and support the carers in their Adoption process.</p> <p>Post approval training is available and the carers are subject to annual review.</p>																																														
10.6.13	<p>Details of Post Adoption Support - this section should include data in respect of the number of and action taken in respect of placement breakdowns both pre (i.e. where</p>																																														

	adoption is the Care Plan) and post Adoption Order	
	<p><i>Narrative</i></p> <p>The Southern Trust has had no adoption breakdowns during this period. All adopters have knowledge of the Trusts Post Adoption Service and aware they can access training and ongoing support post adoption order. In recent months the post adoption service has recruited additional staff with a view to implementing a Post Adoption pathway model which offers all adopters the opportunity to avail of ongoing therapeutic and practical support from experienced staff within the Adoption team alongside our Scaffold service.</p>

10.7.2

Registration issues and commentary as at period end
(Narrative)

The number of registered providers has previously been reducing however in this period there has been a small increase of three in total with an additional 231 registered places. There has been an increase in registered childminders and although the increase is small, only two, this is the first increase in a number of years. It remains difficult to quantify the amount of any unregistered childminding but if they do come to the attention of the Trust they are fully investigated and where appropriate registration is progressed. There has still not been a formal review of the minimum standards. However the Department of Health has issued clarity around standard 11 which includes the

	<p>minimum number of staff required, the number of children in each room and the meaning of the “person in charge”, the “setting” and a “room”. Staffing levels within the Trust Early Years Teams have been maintained at the required level and this has assisted that for the most part regulatory requirements are being met. Inspection reports are not yet going on line but this is still the expectation in the near future. The Trust continues to take the lead with and the Head of Service chairs the Regional Early Years Practice Group.</p>

	10.8 Complaints & Representation
10.8.1	<p>Does the Trust have an appropriately authorised and experienced children's complaints officer? (Narrative)</p> <p>The Assistant Director for Social Work, Workforce Development and Training is the authorised Children Complaints Officer in conjunction with the CYPS Governance Department. The CYPS Governance Department receive all contact cards from children and young people and a visit is arranged via the relevant Head of Service.</p>
10.8.2	<p>Does the Trust have an independent advocacy service for children and their families? (Narrative)</p> <p>The Trust promotes the use of advocacy in many forms: Personal Advisors; VOYPIC; allocated key workers are some examples. VOYPIC is involved on an ongoing basis with all of the residential facilities and are also available to all Trust Looked After Children if required.</p>
10.8.3	<p>What arrangements are in place to ensure that all complaints – both formal and informal – from children and their families are recorded and dealt with? (Narrative)</p> <p>The Regional 'Complaints in Health and Social Care: Standards and Guidelines for Resolution and Learning' and the Children Order Representations and Complaints Procedures both operate within the Trust.</p> <p>The Directorate continues to encourage service users and their carers to make their views known. The Trust's general "user view" leaflet is widely available and actively promoted throughout the Directorate. In addition, the Children Order complaint leaflets and posters are issued to all children and young people known to Directorate staff. Copies were placed in all facilities.</p> <p>Checks are in place via Looked After Children reviews as to whether a Looked After Young person, their parents or carers have any complaints regarding any part of the service during the review period. The Review of Arrangements documentation for the LAC review notes whether the young person, parents and carers have received information regarding the complaints procedures and who will take responsibility for doing so if they have not received it.</p>

10.8.4	<p>What whistle-blowing arrangements are in place to ensure that concerns raised by staff working in children's services are recorded and dealt with? (Narrative)</p> <p>The Trust has a Whistle Blowing Policy in place to ensure that concerns raised by staff working in children's services are recorded and dealt with. Staff are appraised of this policy in their induction into the Trust.</p>
10.8.5	<p>How many <i>Children Order</i> complaints – both formal and informal have been received since the last report?</p> <p>Board return</p>
10.8.6	<p>How many complaints (<i>which do not fall within the Children Order definition</i>) – both formal and informal have been received since the last report?</p> <p>Board return</p>
10.8.7	<p>How have these been dealt with?</p> <p>Board return</p>
10.8.8	<p>What was the outcome?</p> <p>Board return</p>
10.8.9	<p>What percentage of the complaints i.e. Children Order and non Children Order were resolved within the required timescale.</p> <p>Board return</p>

Note: Data for sections 10.8.5 – 10.8.9 – will be sourced by Board officers from existing returns.

OVERALL SUMMARY OF ISSUES RAISED WITHIN CC3/02

The CC3/02 report continues to evidence the high level of activity in relation to the Trust's responsibilities towards children, particularly as a corporate parent. The CYPS Directorate is committed to the delivery of quality services and ongoing improvement of services provided to children and their families in need of different levels of support.

There are many challenges currently due to staffing, finance, demand, LAC placement choice, capacity and expectations, however, this reports evidences the Trust's arrangements to meet these challenges. Staff and managers continue to work hard to promote the wellbeing and safety of all these children and young people and to ensure that the Trust's obligations as a corporate parent are fulfilled. There are high levels of compliance with statutory functions in all areas despite increasing volumes of work and financial stringency. Systems for matching needs to services, for progressing family child protection and care plans and for reviewing and improving practice are developing effectively across the Trust. Despite these challenges all children on the child protection register and who are looked after have an allocated social worker and plan in place. This is due to the dedication and commitment of our staff.

The Trust has welcomed the implementation of Signs of Safety together with other major transformational initiatives. Despite financial constraints related to year 2 of the aforementioned initiatives the Trust is committed to drive these forward during 2019/20 to improve outcomes for children and their families. An Implementation Plan is in place and a mandatory training programme for Signs of Safety is currently being delivered regionally. To date approximately 336 Southern Trust staff members have undertaken a 2 day training programme and a further 20 members of staff have undertaken a 5 day Practice Leaders training programme

A priority for CYPS during 19/20 is to recruit and maintain a happy, trained and competent workforce for core service areas. Work is ongoing to engage with frontline practitioners and managers to listen to them about support arrangements that will make a difference to all staff to undertake their day to day work and have job satisfaction from working with children and their families.

Key areas to note-

The number of children on the child protection register has decreased slightly during the reporting period from 605 at 30th September 2018 to 550 at 31st March 2019, however the general trend over the past 5 years continues to be upwards and this continues to place pressure on our Family Intervention Service together with their responsibility for LAC and family support cases. Each child has an allocated social worker and child protection plan in place and all child protection referrals during the reporting period have been immediately allocated and children seen and spoken to within 24 hours. Child Protection Initial Assessments have been completed within 10 working days.

The number of Looked After Children known to the Trust has decreased slightly during

the report period, from 577 at 30th September 2018 to 560 at period end . Each Looked After Child in the Family Intervention Service has an allocated social worker and care plan in place. However challenges continue in relation to unallocated Family Support Cases across a number of the Family Intervention teams. This is primarily due to vacancies due to sick leave and delays in the recruitment process to replace permanent vacancies and maternity leave cover.

There are very significant challenges in relation to sourcing and providing suitable placements for children with disabilities who have very complex needs and require full time Care placements.

Innovation

Innovative social work practice is a priority and as part of the Social Work Strategy we have successfully undertaken a number of projects. **Co-production** has been identified as a key priority within the Social Work Strategy and the Directorate has evidenced numerous excellent examples of co-production across teams eg, 14 + Service User Group,” Our Lives, Our Voice “ 10-15 years service user group and the Yoga programme within Autism services.

The Home on Time Project, which has been in operation since May/June 2015, is coming to an end. The Trust has implemented the concurrent care model across LAC services and view this as a positive way forward for very young looked after children.

Transformational funding provided in 2018/19 has allowed a new team to be established to support the work of the residential service within the Southern Trust. This team, the Peripatetic Residential Support Team, will support the work of the residential service and aim to assist with stabilising placements, reduce admissions to Secure Care and the Juvenile Justice Centre, and promote the establishment of community relationships within a young person's own community.

Transformational funding 2018/19 has also been provided for the establishment of a Professional Lead to interface with CAMHS, LACC Therapeutic and Adult Mental Health Services. This project post is located within Corporate Parenting. The remit of the post is to support, track and examine the pathways of Looked After Children and Young People who, based on assessed needs, require access to specialist services, primarily LACC Therapeutic , CAMHS, and Adult Mental Health Services.

The 14 Plus Team continues to provide a variety of supports and services based on the assessed needs of the young people. The team consults with the young people and incorporates their views and experiences, coproducing their care plans and new developments in the 14 Plus Service. A well- established Forum for the young people provides an opportunity for the development of new ideas.

Young people in the 14 plus SUG have identified the need for a comprehensive range of

information on leaving care issues which are relevant and helpful to young people leaving care and coming into the 14 Plus Service. They are currently involved in the Co-design and production of a leaflet for all 14 plus care experienced young people outlining all the details of the 14 plus service.

Two representatives of the SUG sit on the Local Engagement Partnership (LEP) and are involved in discussions and partnership working on issues relating to co-production.

The LAC teams continue to work in a collaborative manner with colleagues in FIT and 14 Plus Teams to ensure the smooth transition of case responsibility for Looked After Children between teams. The revised Child's Pathway Protocol is a positive basis for maintaining good practice across teams and ensures care plans do not drift.

A Review of Respite Provision in Foster Care was conducted in 2018/19. This involved the setting up of a Working Group and included a co-production approach in respect of participation from young people and foster carers to gain their views on what works best in fostering respite. Key principles have been developed based on the Respite Review work and these key principles continue to be rolled out across CYPS teams and continue to be reviewed to ensure the Trust has a service that is responsive in relation to respite provision.

The Trust remains committed to the Family Support Hubs by making available both staff support and additional financial investment. During the year additional non-recurrent funding, via the transformational stream was invested in the Family Support Hubs intended specifically to enhance the capacity of Family Support Hubs to deal with growing demand, and to increase their capacity to respond to self-referrals by families, to encourage the Hub network to develop outreach capacity, to assess the level of unmet need for early intervention family support services and to inform the Trust Area Outcomes Group.

The Trust has established a FIT Improvement Oversight group chaired by Paul Morgan, Director CYPS. Membership includes Social Work practitioners, Staff Side and Human Resources, Task and Finish Groups have been established to take forward actions relating to recruitment, staff support, violence and aggression towards staff, communication and administrative support.

Family Support Workers, and some Contact Workers with an interest and skills in provision of family support, have been able to engage with a greater number of families. This has enabled staff to diversify within their role and to develop their skills further, to enhance outcomes for children and families.

Children with Disability Service

Various meetings have been held within the past year with parents from both Oaklands and Carrickore, and a communication strategy developed with each unit. A new residential service in Carrickore has been developed (currently on a non commissioned basis) for children who need medium-long term care placements. Two young people are placed full-time and 1 on a shared care basis. A wider Parents' Forum has been established to facilitate and enhance parents' involvement in a more co-productive approach regarding the development and delivery of services. A new Parents' Forum has been established and is operating within a co-production framework – working on issues they have identified as important – primarily re access to information about support and services that are available.

A new innovative, highly specialist summer scheme for children with complex medical /healthcare needs was developed and delivered through partnership working and shared resources across Children's Disability services, Community Children's Nursing, AHPs and a local private day-care provider, Nana G. It was very positively evaluated by parents and staff but was very resource-intensive, and careful consideration will be given to how to deliver such a scheme again next year

The CAMHS service has a strong co-production ethos, recognising the expertise of our service users and their families and carers in their own health care needs. We want our service to be truly planned, designed and delivered for, with, and by our children and our families, in the spirit of *"nothing about you without you"*.

Autism Services continues to provide a multi-disciplinary, trans-generational service providing assessment, diagnosis, post-diagnostic intervention and longer term support for children, adolescents and young adults. Referrals continue to increase both for ASD assessment and intervention.

Some of the young adults known to the service have registered as Trust volunteers. This has led to the development of the band 'On the Spectrum' which has performed at Trust events and has proved to be a creative and innovative intervention for those children and young people involved.

In conclusion, the Divisions have been struggled to maintain a core social work compliment across the teams, a significant level of maternity and sick leave, particularly at front line social work level continues to present challenges in terms of managing the workload. Recruitment challenges are exacerbated by the difficulty in attracting professional social work staff to Children and Young People's Services. While efforts have been ongoing to seek cover via Agencies this is not always successful due to the lack of availability of social work or lack of interest in the posts offered, particularly for the

Family Intervention Service. It remains a challenge to allocate family support referrals and interventions which has resulted in unallocated cases across the family intervention service and CWD.

A Family Intervention Service Improvement Group has been established to engage with frontline staff and improve support for social workers to undertake complex and challenging work. This work will continue during 19/20.

There are a number of challenges for the forthcoming year and these include reducing the number of family support unallocated cases and providing timely family support interventions to families in need; addressing pressures across the family intervention service relating to demand for family support, child protection and looked after children services and the capacity to provide these within existing resources; to maintain the funded compliment of staff across children's services; provision of increased numbers of local foster placements to provide care for children and young people who have experienced trauma and have a range of complex health and social care needs; funding of services for alleged perpetrators of domestic and sexual violence to change their behaviour and reduce risk to the non- abusing parent and children. There is a need to provide better accommodation choice for young people leaving care which is currently subject to ongoing discussions with Supporting People.

The Directorate will move forward to address these challenges in the coming year.
