# Screening Outcome Report

1<sup>st</sup> January to 31<sup>st</sup> March 2020

## Introduction

Section 75 of the Northern Ireland Act 1998 requires the Trust, when carrying out its functions in relation to Northern Ireland, to have due regard to the need to promote equality of opportunity between nine categories of persons, namely:

- between persons of different religious belief, political opinion, racial group, age, marital status or sexual orientation;
- between men and women generally;
- between persons with a disability and persons without; and
- between persons with dependants and persons without.

Without prejudice to its obligations above, the Trust must also have regard to the desirability of promoting good relations between persons of different religious belief, political opinion or racial group.

The Trust's Equality Scheme outlines how we propose to fulfil our statutory duties under Section 75. Within the Scheme, the Trust gave a commitment to apply the screening methodology below to all new and revised policies and where necessary and appropriate to subject new policies to further equality impact assessment.

## Screening Methodology

For new or revised policies the Trust will consider:-

- What is the likely impact of equality of opportunity for those affected by this policy/proposal, for each of the Section 75 equality categories?
- Are there opportunities to better promote equality of opportunity for people within Section 75 equality categories?
- To what extent is the policy/proposal likely to impact on good relations between people of different religious belief, political opinion or racial group?
- Are there opportunities to better promote good relations between people of different religious belief, political opinion or racial group?

In keeping with the commitments in its Equality Scheme the Trust has applied the above screening criteria to new policies and proposals. The screening process is used to identify which policies are likely to have an

impact on equality of opportunity and/or good relations. Screening assesses the likely impact of the policy as major, minor or none.

If it is decided that a policy/proposal is likely to have major issues relating to equality, it is then necessary to consider carrying out a more detailed exercise called an equality impact assessment (EQIA).

This screening report outlines the screening outcomes for the quarter 1<sup>st</sup> January to 31<sup>st</sup> March 2020.

## Communication and Engagement

In order to carry out our functions there is a need to continue to effectively engage and work collaboratively with a wide range of stakeholders including Trust staff, Trade Unions, service users, carers, commissioners, primary care, public representatives and independent providers.

The Trust is committed to promoting personal and public involvement in all its activities. The development of new policies and proposals will be supported by effective engagement processes to ensure that staff, service users and all interested parties are fully involved. Planning for, and delivering safe, clinically effective and cost effective services requires close collaboration at many levels.

## Outcome of Screening

The screening outcomes are outlined below. Four possible outcomes are recorded:

1. The policy has been **‘screened in’ for equality impact assessment;**
2. The policy has been **‘screened out’ with mitigation or an alternative policy proposed to be adopted;**
3. The policy has been **‘screened out’ without mitigation or an alternative policy proposed to be adopted.**
4. The policy will be **subjected to ongoing screening.** For more detailed strategies or policies that are to be put in place through a series of stages, screening should be considered at various times during implementation.

Description of Policy or Proposal	Screening Outcome	Reason for Reaching Screening Outcome
<p><b>Food Hygiene Policy</b></p> <p>Aim of policy is to ensure that the Trust has in place suitable and robust governance arrangements to support the delivery and maintenance of good hygiene and food safety practices which conform to current food safety legislation.</p>	Screened out	Screened out as having no adverse impact on equality or human rights for staff or service users.
<p><b>Revised Car Parking Charges</b></p> <p>Proposal to introduce revised Car Parking Charges on both Acute hospital sites - Craigavon Area Hospital and Daisy Hill Hospital by decreasing the charge for parking up to 70 minutes and increasing the charges for each of the charge bands between 1 and 4 hours wef 24 February 2020.</p>	Screened out with mitigation	The Trust is mindful of the potential for adverse effect on Section 75 equality categories in particular older people, disabled people and single parents in terms of lower income levels. As such the Trust will continue to adhere to the Regional Exemption Policy for Free Car Parking.
