

# Midwifery Led Unit

## Daisy Hill Hospital

The Midwifery Led Unit is run by a small team of experienced midwives who provide care for you and your birthing partner during labour and the birth of your baby.

### The MLU provides

- A safe, calm and caring environment to facilitate normal birth
- The ability to labour and birth in water
- Holistic women centred care
- A lower rate of medical intervention
- Labour with confidence in quiet, comfortable surroundings

### Who Can attend?

- Low risk women
- Women with uncomplicated pregnancies
- Early stages of induction
- Spontaneous onset of labour
- Women who choose normal physiological labour and birth

### What women say...

"The staff in the Midwifery Led unit were kind, caring and accommodating to all my needs."

"I delivered my second baby in the birthing pool at Daisy Hill Hospital. It was a wonderful experience."

"MLU is a wonderful place for a baby to be born. I felt very confident and comfortable in their care."
