

How to Donate to the Trust

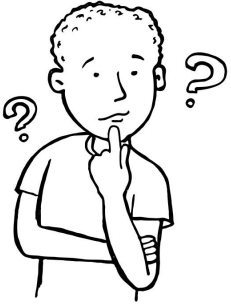

The generosity of the local community makes a huge difference to Trust Patients and Staff!

Every year the Southern Trust receives many donations from members of the public. These donations vary in amount from £10 to thousands of pounds and all are greatly appreciated. They come from individuals, community groups, families, patients, sports clubs, schools, businesses - from all walks of life and all areas of our Trust.

How are donations used by the Trust?

When donations are given to the Trust, they are used in four main ways:

- * To provide additional comforts for patients, clients, relatives, and visitors
- * Staff appreciation, e.g. general hospitality, social events or celebrations
- * Staff Education and Training
- * Academic research and development

Donations can be made to any of the Trust's four Charitable Trust Funds

These are Directorate based Charitable Trust funds which are aligned to how the Trust delivers its services throughout the Southern area.

Acute Services

e.g. cancer services, surgery and medical care

Children and Young People's Services

e.g. hospital care for children and health visiting

Older People and Primary Care Services

e.g. social work, district nursing and domiciliary care

Mental Health and Learning Disability Services

e.g. hospital and community mental health services and supported living

How do I make a donation?

If you wish to make a donation, please speak to a member of Trust staff. The kindness of the public is appreciated by our staff, and we are grateful for the continued generous support for Trust patients and staff.
