

Number of Inpatient Finished Consultant Episodes (including Regular Attenders) and Daycases with a Diagnosis of Genetic Haemochromatosis* by Month

End Date between: 01/01/2022 and 31/12/2022

NOTES:

*Based on Primary Diagnosis or Secondary Diagnosis Codes 1-15: E83.1 - Genetic Haemochromatosis as provided by SHSCT Clinical Coding Team on 08/03/2023

Data only includes Inpatient Episodes (including Regular Attenders) and Daycases that are clinically coded on the Trust's Patient Administration System. If a patient has a Genetic Haemochromatosis Diagnosis at another hospital service/setting e.g Outpatient Clinic, this activity will not be included.
