

IYNI Support Calendar 2023/24

Welcome to the IYNI Parenting Programmes Support Calendar 2023-2024

What is IYNI?

IYNI is the strategic co-ordination project for the implementation of Incredible Years® programmes across Northern Ireland. The project is managed regionally by the National Children's Bureau (NCB) and supported at local level by Child Development Intervention Co-ordinators (CDICs) based in each of the Health and Social Care Trusts. All of this activity is funded by the Public Health Agency (PHA).

IYNI aims to promote, encourage and support a culture of fidelity and high quality implementation of Incredible Years® programmes.

Who can apply for these events?

Applications are welcomed from Incredible Years® parenting programme group leaders and their managers as well as those interested in bringing Incredible Years® into their setting. **You can apply for places through your local CDICs on a first come, first served basis.** Places are limited per Trust area. Some eligibility criteria may apply.

What other tailored support is available?

As well as the events listed in the calendar, CDICs in each of the Health and Social Care Trust areas of Northern Ireland offer a range of other support packages to agencies delivering or hoping to deliver Incredible Years® programmes. These include:

- **Advice** on deciding if these programmes are right for your service and guidance on what's involved in high quality implementation.
- **A lending library** of programme resources, cameras and tripods. Access to recording equipment is key in unlocking supervision opportunities for staff.
- **Group Leader training** with an accredited Mentor to enable your staff to deliver Incredible Years® programmes in your own setting.
- **Peer coaching** - IY's guided self-reflection model of supervision for group leaders, based on video observation and linked to enhanced outcomes.
- **Accreditation support** - a fantastic CPD opportunity for group leaders which also acts as a quality assurance mechanism by enhancing practice fidelity.

Implementation Fidelity Workshop

With an increasing focus on using evidence-based interventions to best meet the needs of our communities and client populations comes the responsibility to ensure that we deliver them in practice as the developers and researchers intended, in other words, with 'fidelity'.

This half day training session supports managers and administrators in their efforts to introduce, embed or scale-up evidence based interventions by exploring the theory of 'implementation science', explaining the link between fidelity and outcomes and identifying practical ways of bridging the 'science to service' gap and creating enabling contexts for success.
