

How to be more active

For many people starting to participate in physical activity can be daunting. It's important to realise that it's not about dressing in lycra, and going to the gym (if that's not your thing).

You can be more physically active anywhere.

There are many ways to increase physical activity and **one of the easiest ways is to walk!**

Walking is:

- **Free!**
- Doesn't require equipment
- Less pressure and strain on joints
- Can be incorporated into everyday life

Do what you enjoy

The most important thing is to find something you enjoy doing! Remember start out slowly, and gradually build up.

- Find out what sessions are provided in local community centres
- Check out your Council Leisure Centre for swimming, yoga or Pilates
- Try golf, cycling or competitive sports

It all counts!

You can also add in household chores such as brushing, mopping or cutting the grass.

Any activity counts, so it doesn't matter how little you do, it all adds up!

Small changes make a big difference!

Walking

Walk slowly at first, and gradually build up to 30 minutes or try 10 minute bouts spread throughout the day.

Tips to increase walking:

- Leave the car at home for short trips – walk to shops or visiting friends
- Walk to school or work
- Park the car further away from shops or office
- If traveling by bus, get off 2 stops early and walk
- Have a walking meeting or stand for phone calls
- Avoid lifts and take the stairs
- Go for a walk at lunch time or after work
- Sign up to a walking group
