

Welcome to the first newsletter from Team Emerald, the first Continuity of Midwifery Carer team in the Southern Trust. As a team we plan to keep staff up-to-date with the development of CoMC model of care.

What an amazing four months the team have experienced. Including building relationships within unfamiliar areas within the maternity unit, changing the way we work our shifts, and learning how to manage our own diaries.

We front loaded at the start with 51 women and have booked a further 92 up until 1st

We have been busy throughout August having 4 women birth their babies in July and a further 22 in August

September The Future We are delighted to introduce a new member of the team who starts in September. Rachel Graham

We are extremely excited to have Rachel join the team, with her experience in intrapartum care, postnatal care, antenatal and community she certainly will bring great knowledge and experience

Lovely words from Care Opinion feedback
