FREEDOM OF INFORMATION ACT 2000 – INFORMATION REQUEST

Question:

Can you please advise the number of gynaecology clinics and waiting times for appointments for these please?

Response:

On average over the last three months 44 gynaecology clinic sessions per month have taken place across the Trust.

The regional waiting list management unit now publish on a public facing web site, waiting times for New/First Outpatient Appointment at Consultant Led Services. The figure they publish by specialty is the 'average waiting time – in weeks' for Red Flag, Urgent and Routine waits. The link for this web page is [waiting times SHSCT](#) – go then to the outpatient tile and select gynaecology specialty.
