FREEDOM OF INFORMATION ACT 2000 – INFORMATION REQUEST

1) The number of buildings at trust sites where reinforced autoclaved aerated concrete (RAAC) has been used.

The Trust has commissioned a survey of buildings of a particular construction type and age to ascertain presence of RAAC, this is expected to be available over the coming weeks.

2) The quantities (in most appropriate metric) of RAAC used in specific buildings across trust sites.

The Trust has commissioned a survey of buildings of a particular construction type and age to ascertain presence of RAAC, this is expected to be available over the coming weeks.

3) Where exactly the RAAC has been used at the identified buildings, facilities etc.

The Trust has commissioned a survey of buildings of a particular construction type and age to ascertain presence of RAAC, this is expected to be available over the coming weeks.

4) When the RAAC is thought to have been installed in each location.

The Trust has commissioned a survey of buildings of a particular construction type and age to ascertain presence of RAAC, this is expected to be available over the coming weeks.
