

CODE OF CONDUCT FOR HSC EMPLOYEES

SEPTEMBER 2016

HSC Code of Conduct for Employees

This Code of Conduct is about the values for which we, as HSC staff, stand. The Code sets out the core standards of conduct expected of all HSC Staff. It has been written to complement existing professional codes of practice.

Professional staff are expected to follow the code of conduct for their own professions as well as this code.

The code aims:

- To guide staff, managers and employers in the work that they do and the decisions and choices they have to make; and
- To reassure the public that these important decisions are being made against a background of professional standards and accountability.

Adherence to the Code is mandatory for all employees, regardless of their status and breaches of the Code will be regarded as serious.

HSC staff are highly principled and value-driven people who will welcome this Code and exemplify the expected behaviours. All staff within HSC are responsible for, and have a duty of care, to ensure their conduct does not fall below the standards detailed in this Code and that no act or omission, within the sphere of their role, harms the safety and well-being of patients/clients and service users and their families. The Code is a set of values which should inform development programmes and training for all staff. It should make us all think exactly how we are going to work, how we make the care and safety of patients our first concern and how we respect the public, patients, clients, service users relatives and carers. If, however, the conduct and behaviours of staff falls short of the public's expectations this reflects poorly on the HSC as seriously as failures by clinical and care staff.

Breaches of the Code must be investigated fairly and employers should adopt a proportionate approach. Just as the Code sets out how all staff should behave and their responsibilities, you also have rights. You have the right to be treated with respect, evaluated consistently and fairly, encouraged to maintain and improve your knowledge and skills and to be helped to balance your work and home lives properly. HSC Employers must provide and promote an organisational culture which values and supports staff and teams.

This Code of Conduct applies to **all** HSC Staff, across all HSC Trusts and HSC Arms Length Bodies. This code incorporates the principles contained within the Code of Conduct for HPSS Managers 2003 and supersedes it.

This Code is also consistent with the 7 principles of public life, ('the Nolan Principles') which applies to everyone working as a public office-holder and therefore should govern the conduct of all health and social care staff.¹

1. INTRODUCTION

This Code of Conduct (the Code) sets out the standards of conduct expected of all staff in the Southern Health and Social Care Trust.

It presents the standards of conduct and behaviours required of all staff and informs employers, colleagues, patients/clients service users and the public about these.

The Code refers to “employees”, however, for the purposes of this document, this definition also applies to all workers (Agency & Bank), volunteers and work placements.

Adherence to the Code is an integral part of employees’ contractual responsibilities during their employment with the Southern HSC Trust.

- Employees must not use their privileged position to neglect, harm, abuse or exploit patients/clients/service users or their families.
