Total	50.6m

Energy Management System Contract(s) - Contract(s) relating to the organisation's energy management system. An energy management system (EMS) is a system of computer-aided tools used by operators of electric utility grids to monitor, control, and optimise the performance of the generation or transmission system.

If the organisation does not have an Energy Management System, please confirm when this will be implemented. It would be great if you mention the tentative date/month.

Energy Management System

Question 1. Provider name

Response:

N/A – The Trust does not have an Energy Management Systems contract.

Question 2. Annual Spend

Response:

See answer to question 1.

Question 3. Contract Duration (including any extensions)

Response:

See answer to question 1.
